A: Tornillo regulador de frenado.

COMPÁS CON RETENEDOR

Ref	MEDIDAS	ACABADO	
08340	230	Latonado	25

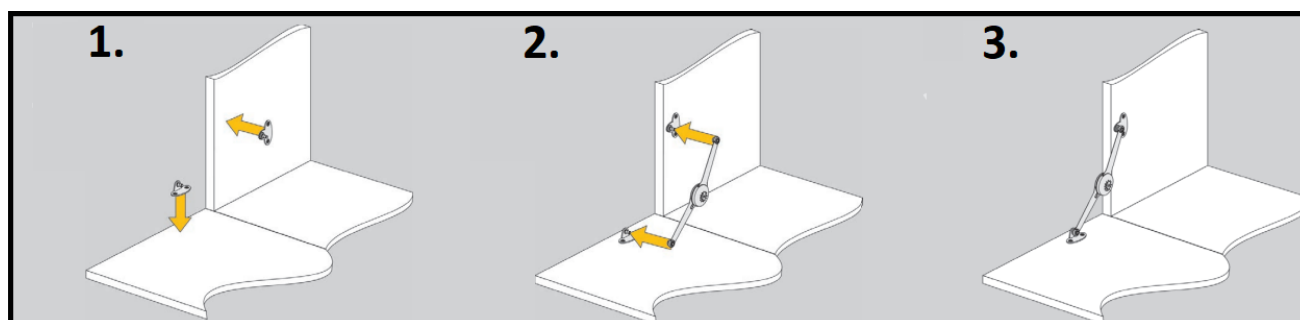

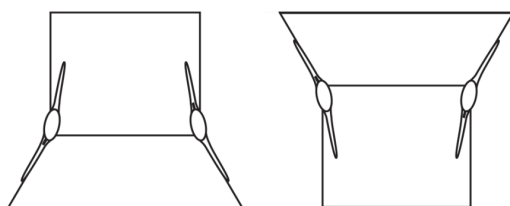

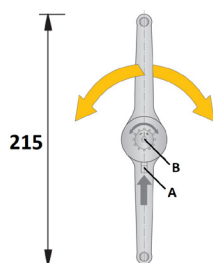

COMPÁS REVERSIBLE

Ref	MEDIDA	ACABADO	
08337	215	Niquelado	10

Una simple presión en el accionador "A" permite pasar el brazo superior de un lado a otro. Con esto se consigue cambiar la acción de frenado al cerrarse a frenado al abrirse.

En función de la regulación que se haga de la fuerza (tornillo Allen "B" de 4mm) puede conseguirse desde un frenado de caída hasta el posicionamiento intermedio de la puerta.

El montaje del herraje es muy sencillo:

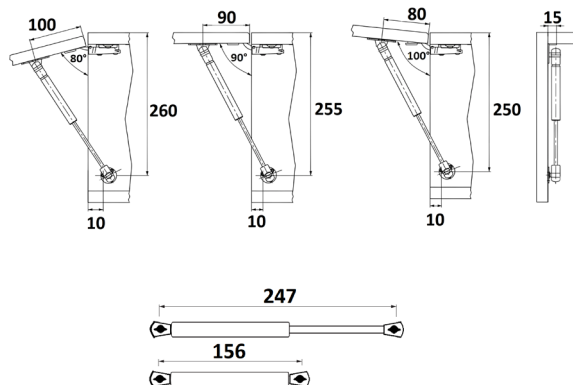

1. Atornillar escuadras independientemente. 2. Enganchar el herraje de forma manual.

COMPÁS A GAS (27cm)

Ref	FUERZA	ACABADO
